"Numerous clumps of trees mark the course of the Assiniboine River, which keeps in sight of the railroad for some distance.

"Grass is one of the notable things about all the landscape of Western Canada. It is a remarkable fact that the entire length of the Canadian Pacific railway from its eastern terminus to the Rocky mountains is over plains where grass grows. The sage brush appears at some points, but never to the exclusion of grass. There is thus not a mile of this country that cannot be used for some agricultural purpose -either for tilling or ranching.

"Moose Jaw is a town of over 2,000 inhabitants and one of the most important places in Assinibola, being the center of a very good farming country and a great grain and stock shipping point.

"Near Moose Jaw agriculture and ranching go hand in hand; for near the town was seen a herd of beef cattle several hundred in number. Or another side was seen a good sized herd of dairy cows, the property of the citizens in the town.

"In riding over the prairies we saw many good fields of alfalfa. The great need of the country is timber, which grows readily where planted, as was demonstrated by the shelter belts on some of the farms, and the trees on the residence lots in the town.

"Stories were told the writer of men who last year cleared from their wheat crop more than the land on which it was grown originally cost them. This is easy to believe in view of the large crop and high price for wheat last year.-Henry F. Thurston."

Wasn't Sensick Anyhow.

In crossing the ocean a father and son both became very seasick. The father recovered quickly, but the son was so exhausted with the attack that he sank into a state of apathy from which it seemed impossible to arouse him. The steamer physician, thinking he would try a sudden shock, said: "I have bad news for you. Your father is dead." The son, raising his expressionless eyes to the doctor, replied: "Lucky man!"

A Professional Nurse tells her experience with Doan's Kidney Pills.

Montague, Mass. FOSTER-MILBURN CO., Buffalo, N. Y. Gentlemen.-I heartily wish those who are suffering from backache and disturbed action of the kidneys would try Doan's Kidney Pilis. As was the case with me, they will be more than surprised with the results. I have been troubled for years with my spine. I could not lie on either side. Spinal cramps would follow, and words could not explain the agony which I would endure. While in these cramps I could not speak or move, but by making a great effort after the cramp bad left me I could begin to speak and move a little, but my whole back was so sore and lame that I could not even have my back bathed for some time. My nerves were in a terrible state. I would rather sit up at night than go to bed, dreading the cramps and the terrible backaches. I consulted physicians, but got only a little relief for the time being. Seeing your advertisement, my mother urged me to try Doan's Kidney Pills. After using one box I was better, and have ever since been on the gain. I have no backache and no cramps now, and I feel like a new person. HORSE-SHOEING STAND.

Oregon Inventor's Device for Making the Most Fractions Animal Gentle as a Lamb.

So many sermons have been preached already on the wonderful intelligence and obedience of the horse that there is no need of another one in this column, but we may mention one proof of that obedience in the attitude the animal maintains toward the blacksmith while the later tears off an old shoe, trims the horny hoof, holds a hot iron shoe against the foot to ascertain if its shape is correct. and finally nails the shoe fast to the foot with many blows of the hammer. It is surprising to think that so spir-

Once in awhile the blacksmith in his labors comes in contact with a horse which refuses to yield to his command, showing a mulish disposition and occasioning no small amount of trouble. Then the shoer uses ingenuity, persuasion and finally strength to accomplish his purpose. It is an animal of this kind which the artist has drawn in the illustration, and the horse seems to be at a slight disadvantage; in fact, to have met his Waterloo-that's where the inventor lives, by the way. Hereafter when a steed shows contrariness the blacksmith will simply put his feet in the stocks. How will he get them there? Well, possibly by the same recipe as the circus man trains his tiger. The first rule runs something like this: "First catch your tiger." So,

you first catch a leg, possibly with a rope noose, and, after making it fast, proceed in the same manner with the other leg. Then hoist the tackle until a large portion of the weight is removed from the hind legs and the animal is ready to be shod .- Louisville Courier-Journal.

Miss Nellie Holmes, treasurer of the Young Woman's Temperance Association of Buffalo, N.Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: — Your medicine is indeed an ideal woman's medicine, and by far the best I know to restore lost health and strength. I suffered misery for several years, being troubled with menorrhagia. My back ached, I had bearing-down pains and frequent headaches. I would often wake from restful sleep, and in such pain that I suffered for hours before I could go to sleep again. I dreaded the long nights as much as the weary days. I consulted two different physicians, hoping to get relief but finding that their medicine did not seem to cure me. I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me.

"I am glad that I followed her advice, for every ache and pain is gone, and not only this, but my general health is much improved. I have a health is much improved. I have a fine appetite and have gained in flesh. My earnest advice to suffering women is to put aside all other medicines and to take Lydia E. Pinkham's Vegetable Compound." - Miss Nellie Holmes, 540 No. Division St., Buffalo, N.Y. — \$5000 forfalt if original of above letter pro-sing genuineness cannot be produced.
